Your Top Priorities

I am tired of paying so much income tax! I work hard for my money and want some to pass on to my children.

I think that it is disgraceful that race or gender are used to decide whether or not to hire someone.

I think climate change is probably a hoax but I'm not sure

My town desperately needs more and more affordable local transportation options

I am angry that Jan 6th rioters may get pardoned as many are violent criminals

I'm afraid AI could lead to scary Sci-fy like stuff, but it's too hard for me to understand.
